4 REASONS WHY YOU SHOULD CHOOSE THE ULTIMATE COMPOSITE DOOR

Making the right choice of front door for your home can be difficult, as the entrance tends to be the focal point, as any visitor will tell you. The style and colour of your door can have a dramatic effect on the first impression of your home.

In the past, homeowners have been limited by the materials available, restricted between timber and PVCu, one being difficult to maintain, the other quite bland in design.

The Ultimate Composite door collection opens up a whole new world of design and choice for your home, giving you the beauty of timber with

the benefits of advanced GRP & PVCu with none of the drawbacks. The Ultimate Composite door will meet all of your requirements for Style, Colour, Security and adhering to all the latest building regulations.

Over the next pages we have demonstrated four basic facts enabling you to make your choice with peace of mind.

4 REASONS TO CHOOSE ULTIMATE COLLECTION

COMPOSITE DOORS

SECURITY

A MASSIVE 67% OF ALL BURGLARIES ARE ATTEMPTED THROUGH A DOOR...

With the constant threat of crime in most areas, security has become a major factor in the choice of doors for homes. One home in the UK is broken into on average every 37 seconds, and with 67% of all burglaries attempted through a door; it is vital you make the right choice.

The Ultimate Collection of composite doors are made from a very durable compression moulded GRP slab and the whole door set has been tested the rigorous PAS 023/024 standards for enhanced security. All of the collection comes with the

latest high security Multi-point locking systems and the option of the latest anti-bump, anti-snap, anti-pick key cylinder from Yale or alternatively the cylinder free lock from ERA Security. The Ultimate collection has been manufactured and tested to such a high standard that it has been awarded the Secured by Design stamp of approval by the Official Police Security Initiative.

You can make your choice of door with peace of mind.

 Indicates that the door sets have achieved Secured by Design standard

4 REASONS TO CHOOSE ULTIMATE COLLECTION

COMPOSITE DOORS

ECONOMY

UP TO 15% OF HEAT LOST IN A HOME IS THROUGH ILL-FITTING EXTERNAL DOORS

With the advent of new building regulations and the ever-rising cost of fuel to heat your home, good insulation is another major factor to bear in mind. Research has shown up to 15% of the total heat loss in a home is through ill-fitting external doors, which will have an effect on your heating bills.

The solid Polyurethane core of our doors give superior heat insulation compared with standard PVCu and timber doors. The glazing in

the Ultimate Collection is at minimum double-glazed, incorporating features such as argon gas filling and highly thermal efficient spacer bars, whilst many of the advanced triple glazed units provide even greater efficiency. All the components within the Ultimate door including the frame are designed to give a complete weather seal, eliminating drafts and heat loss from your home.

When you make your choice, you know that your new door will be eco-friendly.

4 REASONS TO CHOOSE ULTIMATE COLLECTION

COMPOSITE DOORS

STYLE

WE OFFER A RANGE OF TRADITIONAL DOOR STYLES TO SUIT MOST TASTES

The Ultimate Collection covers the most popular styles of door whether you are a traditionalist, or prefer a more contemporary feel.

If you are looking for that distinctive entrance to your home while retaining the feel of timber, without the endless maintenance associated with a traditional timber door, the Ultimate Collection has the answer.

Whatever you choose, the high-definition

embossing of the GRP skins gives a real wood effect and feel, and comes complete with a 10 year surface guarantee, the only maintenance it will require is a quick wipe down, no more painting or varnishing.

For that stylist entrance that your home deserves, choose an Ultimate Composite door.

4 REASONS TO CHOOSE ULTIMATE COLLECTION

COMPOSITE DOORS

ORIGINALITY

CHOOSE FROM 7 COLOURS, 17 GLAZING CONFIGURATIONS & 22 GLASS RANGES

One size does not fit all, that's why the Ultimate collection covers all styles of traditional and contemporary doors, helping you to make your own unique entrance.

Every Ultimate Composite door is custom made to your requirements, with a choice of 7 colours, 17 glazing options and 22 glass ranges, the possibilities will add up to thousands. There are many reasons why our range is called The Ultimate Collection, choice is just one of them.

Whichever combination you choose, the Ultimate Composite door will enhance your home with its elegant styling and will be a welcoming entrance for your visitors that you can be proud of for many years.

venetian blind option

This Venetian blind is cleverly encapsulated within the insulated glass cavity of this door to provide a zero maintenance blind. The blind can be raised, lowered and easily tilted using the unobtrusive fingertip control on the edge of the frame. Say goodbye to tiresome dusting and hello to a beautifully controlled environment you'll love.

sidelight & toplight options

For our Overlay and Resin Art designs, it is possible to offer matching decorative glass for custom or composite sidelights and toplights, or to simply compliment the designs by using the same backing glass options.

For our Brass & Zinc Art designs, due to the complex manufacturing techniques involved, it is only possible to have matching decorative glass by using a composite sidelight.

For non-composite sidelights and toplights, we recommend the use of 'glue-chip' glass to compliment the Brass & Zinc Art products.

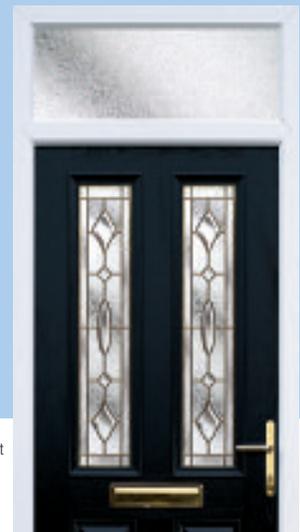

Resin Art Fleur with custom split sidelight

Overlay Art Diamonds with custom full sidelight

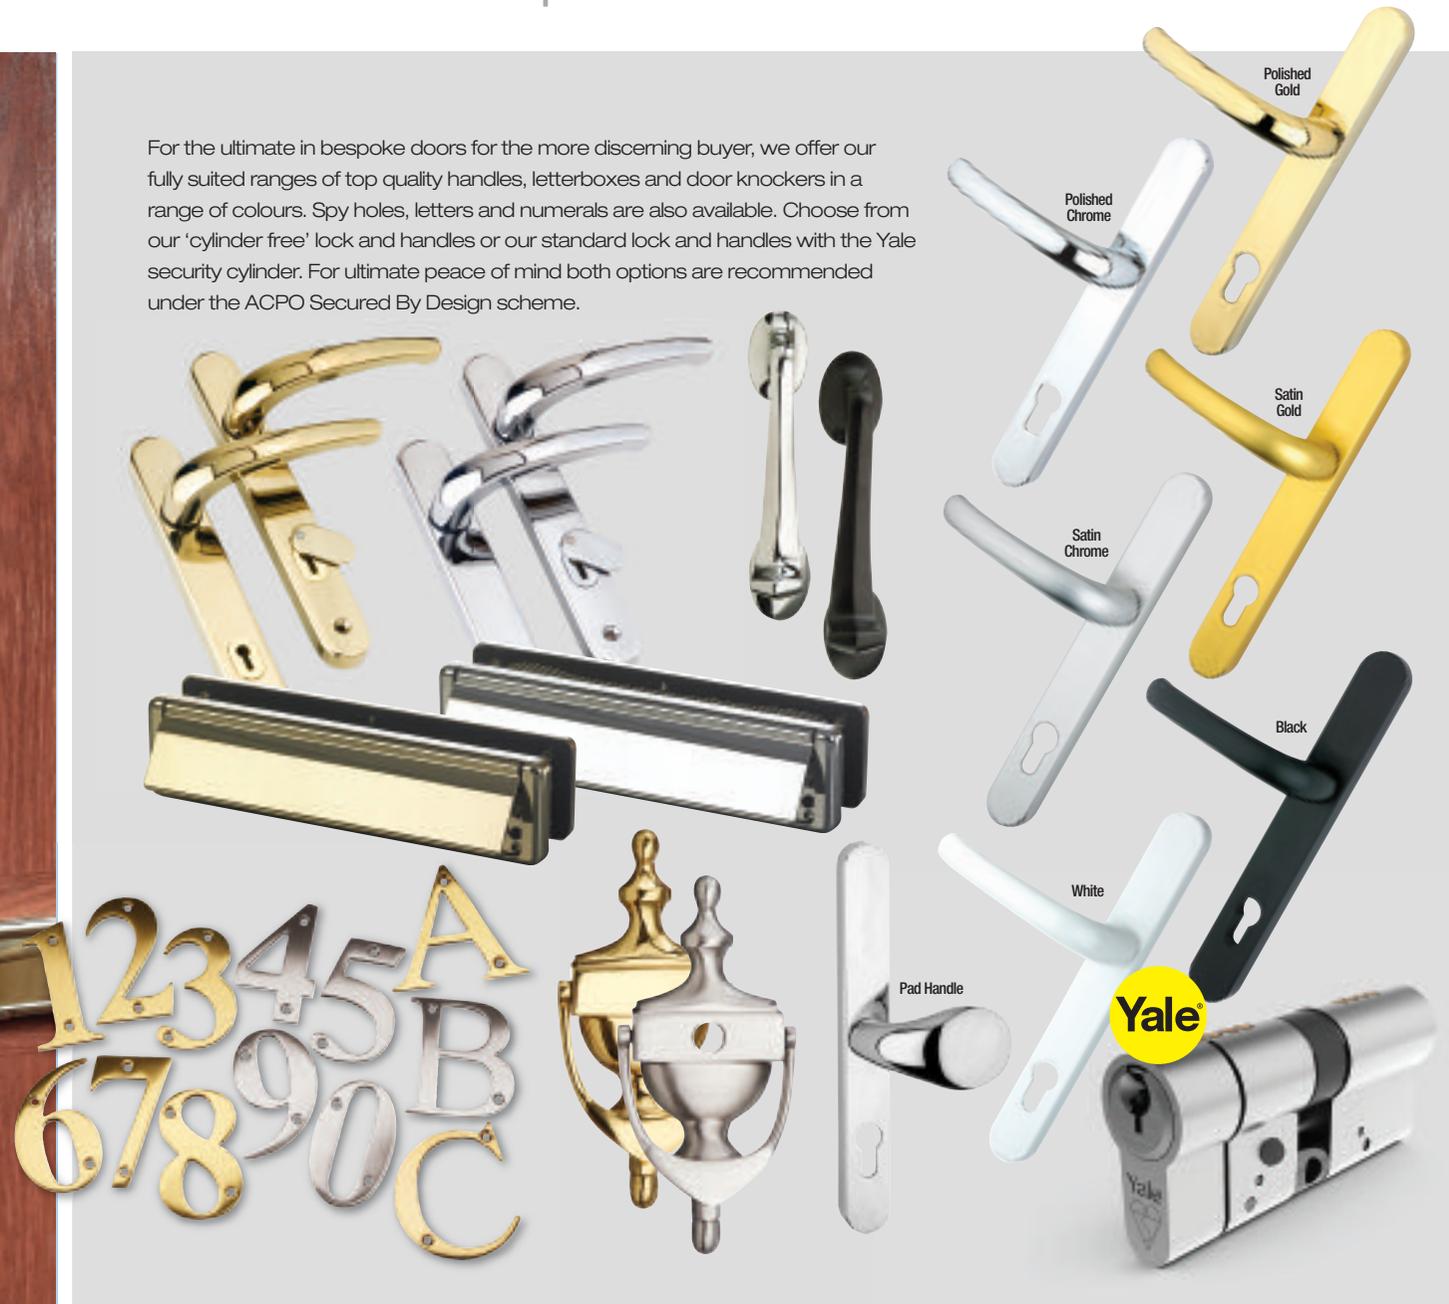

Zinc Art Elegance with matching double composite sidelights

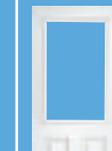

Brass Art Clarity with glue-chip glass toplight

hardware options

For the ultimate in bespoke doors for the more discerning buyer, we offer our fully suited ranges of top quality handles, letterboxes and door knockers in a range of colours. Spy holes, letters and numerals are also available. Choose from our 'cylinder free' lock and handles or our standard lock and handles with the Yale security cylinder. For ultimate peace of mind both options are recommended under the ACPO Secured By Design scheme.
